

Upgrade/Conversion Kits

LED Marker Upgrade & 312 to 324 Conversion

LED Marker Kit

The LED marker conversion kit converts incandescent markers on Flash xenon lighting systems to LED. LED fixtures utilize existing marker bases to simplify install. The new red light module replacement provides electronic adjustments for proper marker alarming.

- ◆ (5) year warranty on LED markers
- ◆ Reduce tower climbs with long lasting LED
- ◆ Power consumption reduced from 116w to 6.8w/marker
- ◆ Utilize existing marker bases for easy install

312 to 324 Kit

The 312 conversion kit converts an FTB 312 to an FTB 324. The new FH324 is complete with new xenon tubes and carries a full (2) year warranty. This kit can be used in conjunction with the LED marker kit featured above.

- ◆ (2) year warranty on new xenon flashhead including tubes
- ◆ No moving parts in flashhead
- ◆ Friction fit flashtube mounting for easier maintenance
