

FTC 140

High Intensity System Controller

Onsite Diagnostics & Programming with Dry Contact Monitoring

Engineered and designed by Flash Technology exclusively for Flash products, the FTC 140 monitors, diagnoses, logs and communicates lighting system events via an onsite LCD digital display panel.

FEATURES & BENEFITS

- LED indicators for on site at-a-glance status
- Independent LED status light for each beacon
- Synchronizes beacons and directs flash timing and intensity
- MATS™ - Mode Alert and Transition System
- Reports beacon alarms
- Enables automated or manual intensity control
- (1) dry contact data point output
- Option for normally open or normally closed data point
- Rack mount available
- Utilizes resistive photocell
- NEMA 4X stainless steel outdoor rated enclosure
