

FTM 190 SNMP Monitoring Unit

The FTM 190 is an ethernet-based SNMP monitoring unit that can be monitored by Flash Technology or a third-party NOC. The FTM 190 is available with an optional LTE modem for Flash Technology NOC monitoring. The ethernet port can be utilized for third-party monitoring using SNMP v2c or v3.

Data can be uploaded to Flash's web portal for monitoring data, reporting and remote diagnostics. 24/7/365 monitoring and call center services are available with Flash monitoring.

Standard Features

- Adds a web interface to configure and control the lighting system remotely or onsite
- LTE modem optional (AT&T or Verizon)
- Built-in AC power monitor
- Battery back-up ensures alarm notification during power outages
- 8 dry contact monitoring data points
- LED status indicators
- Eagle interface with Flash equipment provides compliance with FCC quarterly lighting inspection (QLI) waiver
- 2-year warranty

Monitoring Interface

Onsite or remote web interface provides the following capabilities:

- Lighting system status and diagnostics
- Ability to configure and change mode
- Perform lighting inspections

SPECIFICATIONS

Dimensions	13.5 x 7.75 x 6" (342.9 x 196.9 x 152.4 mm)
Weight	15 lbs. (6.8 kg)
AC Voltage	120 or 240 VAC
Frequency	60 Hz
DC Voltage	12 VDC
