

Mounting Brackets for Wind Turbine Lights

Flash Technology wind turbine mounting brackets utilize industry-standard hole patterns and dimensions, allowing most manufacturer's FAA lights to be installed on the wind turbine nacelle. All brackets are constructed of lightweight aluminum and powder-coated with the industry-standard "RAL-7035" to match typical nacelle color.

Universal Mounting Bracket

- 3 rugged adjustment "legs" define a horizontal plane and allow multi-axis adjustments to accommodate sloping turbines with up to 10 degrees of adjustment off horizontal
- Fast and easy leveling system uses bolts with jam nuts
- Includes mounting hardware
- Weight: 25 lbs (11.3 kg)

GE Turbine Bracket

- Fixed position
- Fits most GE turbines
- Includes mounting hardware
- Weight: 13 lbs (5.9 kg)

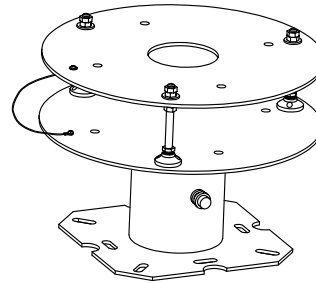

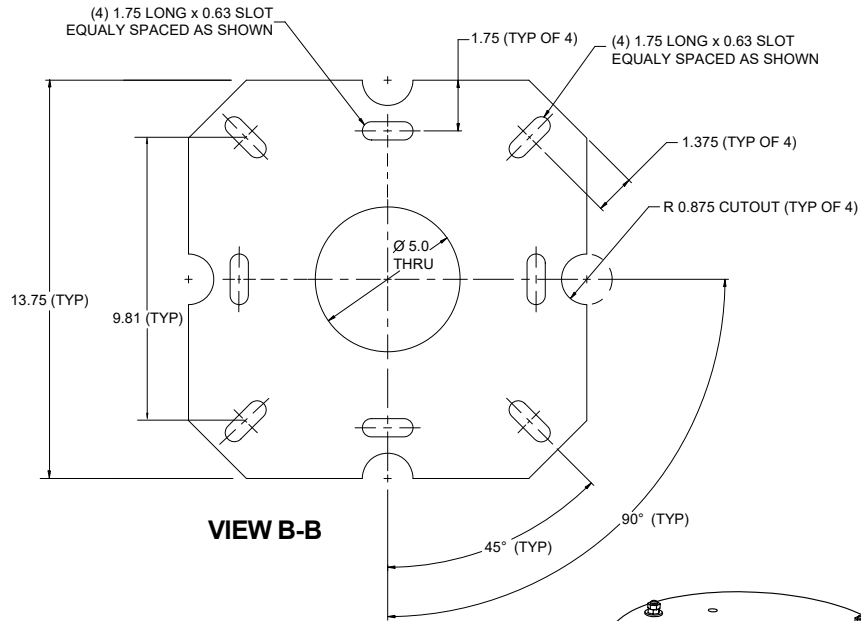

Siemens Turbine Bracket

- Fixed position
- Fits most Siemens turbines
- Includes mounting hardware
- Weight: 8 lbs (3.6 kg)

For help matching the appropriate bracket to the wind turbines on your wind farm, please call Flash Sales at 615.503.2000.
