MILITARY AIRFIELD LIGHTING SOLUTIONS

Flash Technology has been a trusted military and GSA equipment supplier for 25 years. Our solar airfield products thrive in remote, austere operations, and have proven themselves durable and reliable for military organizations worldwide. We have installed more solar airfields than any other company.

Our products are ideal for both temporary and permanent operations, including:

- Forward operating bases
- Main bases, forts and camps
- Training facilities
- Helipads
- Border security sites

All products are configured to meet your specific requirements including: optics, power (battery and solar), exterior finish and our secure wireless control

WHY CHOOSE FLASH TECHNOLOGY AIRFIELD LIGHTS?

EASY INSTALL

SIMPLE
OPERATION

COMPLIANT

LOW COST

RAPID
DEPLOYMENT

GREEN
TECHNOLOGY

Runway
Edge
Lights

Durable, portable and low-maintenance for permanent, temporary or emergency installations. Visible or infrared output and variable light intensities. ICAO, FAA and STANAG compliant.

Runway
Threshold
Lights

Elevated Runway
Guard Lights
(ERGL)

PAPI

Provides 24-hour unidirectional
flashing to reduce airfield
incursions at runway and
taxiway intersections.

Helipad
Lighting
Systems

Configurable solar system ideal for rapid
deployment, off-grid or remote helipads.
ICAO, FAA and STANAG compliant.

Airfield
Trailer

Aids in rapid, portable deployment of Flash
Technology lights for airfields, helipads and
other applications. Built to your specifications.

Barricade
Lights

Portable solution for
identifying closed runways,
construction zones and
other airfield obstacles.

MILITARY AIRFIELDS

Reliable in the harshest environments, Flash Technology's solar airfield lights are trusted by air force, national guard, police, marine corps, navy, army and coast guard organizations around the world.
